

Application No. 09/207,748
Docket No. 29250-000667/US

Listing of Claims and Amendments thereto:

This listing of claims will replace all prior versions, and listings, of claims in the application:

THE FOLLOWING ARE THE CLAIMS PENDING FROM THE PREVIOUS AMENDMENT FILED JUNE 25, 2003.

1. (Previously Presented) A method for communicating power control information for at least two communication channels, comprising:

transmitting power control information for a first forward channel during a portion of a first segment of a pilot channel, the first segment being one of a plurality of repeating segments; and

transmitting power control information for a second forward channel during a corresponding portion of a second segment of the pilot channel, the second segment being one of the plurality of repeating segments,

the power control information for the first forward channel being different then the power control information for the second forward channel.

2. (Previously Presented) The method of claim 1, further comprising alternating between the transmission of power control information for the first forward channel and the transmission of power control information for the second forward channel.

3. (Previously Presented) The method of claim 1, further comprising transmitting power control information for a third forward channel within a corresponding portion of a third segment of the pilot channel, the third segment being one of the plurality of repeating segments.

4. (Previously Presented) The method of claim 1, wherein power control information for the first forward channel is transmitted at least two or more times for each transmission of power control information for the second channel.

Application No. 09/207,748
Docket No. 29250-000667/US

5. (Previously Presented) The method of claim 1, wherein the first forward channel is a voice channel.

6. (Previously Presented) The method of claim 5, wherein the second forward channel is a data channel.

7. (Previously Presented) The method of claim 1, wherein the first forward channel is a data channel.

8. (Previously Presented) The method of claim 1, wherein the first forward channel is a video channel.
